Manager Options

Create New

Create new Vault and SEGAs. Account creations incur network fees.

Vault

Sega

Add or Remove

Show or hide your existing accounts from view

Vault

Sega

Manage Security Settings

Modify security and recovery parameters of your accounts

Vault

Sega

Recover

Reclaim your Vault and SEGAs through the designated Backup Account

Vault

Manager

- Create New Vault / Sega popup Screens

New Vault

Create a new independent Vault.

All names set by you are stored locally on your PC and are not collected by Risk Protocol. Current user will also be designated as the owner for the new vault.

You will be required to pay the network fees for new Vault creation.

 Create

New Segal

Create a new independent Segal linked to any of your Vault.

All names set by you are stored locally on your PC and are not collected by Risk Protocol. Current user will also be designated as the owner for the new vault.

You will be required to pay the network fees for new SEGAL creation.

 Create

Manager

- Add or Remove

Add Existing Vault

Start tracking your already existing Vaults.

All names set by you are stored locally on your PC and are not collected by Risk Protocol.

Nickname

Account Address

Add

COMMENT: Pls use better graphic

Add Existing Sega

Start tracking your already existing Sega.

Add external Vaults first, and then their Sega.

All names set by you are stored locally on your PC and are not collected by Risk Protocol.
